

The Voice AI Agent Market is Exploding

Don't Miss the Gravy Train

The **global Voice AI Agent market** is growing at an explosive **34.8% annually**—outpacing every other tech revolution in the past decade. From marketing automation to CRM systems and mobile-first strategies, nothing compares to the speed and impact of AI Agents today.

By 2025-2026, **70% of enterprise and government organizations** will be leveraging AI Agents—including Voice AI—for daily operations.

But here's the advantage: **only 10–15% of small businesses have adopted AI Agents** so far. That means **you still have time to get ahead of your competitors—if you act fast.**

Why Choose Dealey Media International?

At **Dealey Media International**, we're not just ahead of the curve—we're **setting the standard.**

We launched our **AiGent platform** in 2024 to bring Voice AI solutions to small and midsize businesses with **more power, more automation, more intelligence, and more ROI** than anyone else.

We're proud to now offer:

- ✓ **HIPAA Compliance** for healthcare clients in the U.S.
- ✓ **GDPR Compliance** for European businesses handling customer data
- ✓ **Multilingual Support** to engage customers in their native language

Other vendors can't say the same.

Real-World Use Cases by Industry
